OBJECTIVES

The objective of the Seminar “E-didactics for Language teachers” is to provide participants with the skills to implement application of innovative strategies and solutions to education and train them on how to implement e-learning, multimedia and media in a teaching and learning context.

The “E-didactics for Language teachers” Seminar focuses on the following topics:

- Analyse, understand and further investigate the issues related to the **application of multimedia and media solutions to language teaching and learning**
- Analyse the **practical aspects** of the application and development of multimedia and media products for language teaching and learning purposes.
- Address the issue of **multimedia and media as learning environments** as well as the practical aspects of developing multimedia and media based learning objects.
- Examine the **educational potential of Social Networks** identifying the sociological implications in the use of those new tools as a language teaching and learning tool

TARGET GROUP

The international Seminar “E-didactics for Language teachers” is addressed to language teachers interested in learning more on how to exploit Multimedia and Media to improve attractiveness and interactivity of educational materials and didactics.
